***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3,6,7 and 10 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Mullet et al. See hinge assembly 51,51', pin member 326,226 (column 12, lines 10-12), and "collars" 228.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4,8 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mullet et al.

The threaded collar 228 is the full mechanical equivalent of a collar having a set screw. It would have been obvious to use such a collar with a set screw so as to ease assembly by eliminating rotating the collar 228.

***Allowable Subject Matter***

Claims 5,9 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3634

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
